Citect Anywhere

Access real-time process data -
anywhere, anytime, on any device!
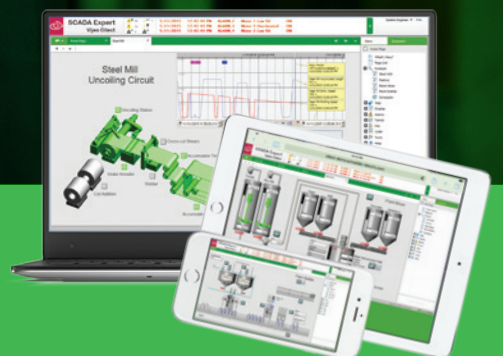

Citect Anywhere…

Citect™ Anywhere is a mobile extension of Citect SCADA that provides unprecedented real-time access to Citect applications via HTML5-compliant web browsers.

Maximize your Citect SCADA investment, with Citect Anywhere bringing full SCADA functionality, visibility and the same rich user experience to your smart device … from any location, at any time.

Operators can seamlessly access key process information, address real-time issues, troubleshoot equipment and take swift corrective action saving valuable time and driving operational efficiency

Anywhere

Anytime

Any device

Citect **Anywhere** + Citect **SCADA**

Keep your finger on your operations' pulse

Citect Anywhere enables visualization, collaboration and execution of process data at various levels of the organization – from any location and any device, ensuring you always have your finger on your operations' pulse.

Real-time process insight, combined with zero client installation and maintenance saves valuable time and empowers users to monitor and optimize operations at any time, in any location.

Turn your smart device into a powerful SCADA application capable of displaying, analyzing, managing and controlling your operations from any location, at any time.

Inbuilt Security

Citect Anywhere offers inbuilt safeguards to help protect process data from unauthorised access, on any device, in any location, at any time.

Security features include:

- Integrated Microsoft Windows authentication: Active Directory
- Encryption: Secure Sockets Layer (SSL)
- Portal roles: Read and read/write privileges
- Firewall friendly: The portal can be placed inside a DMZ (via a gateway as shown below)

Secure Gateway

WebSockets
HTTP/HTTPS

WebSockets
HTTP/HTTPS
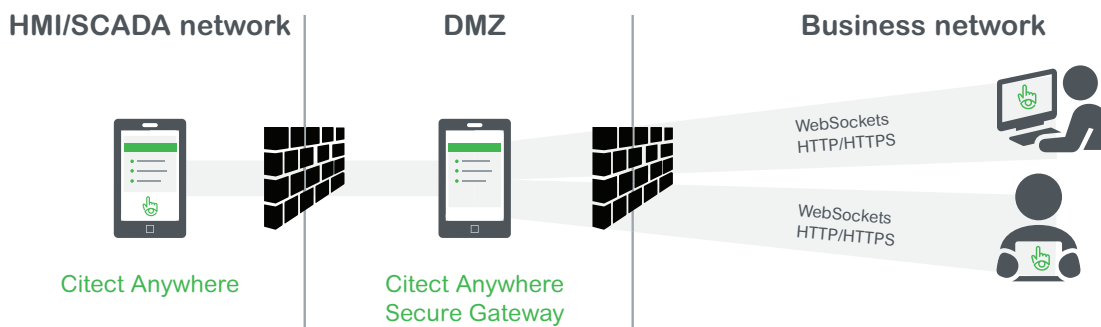

Citect Anywhere Secure Gateway is a complimentary component of Citect Anywhere that provides remote access to Citect SCADA clients.

Note: 1. It is strongly recommended that the Citect Anwhere Secure Gateway is used if you are using the software outside your network.
    2. If you are upgrading from Citect Anywhere v1.0 to v 1.1 a license upgrade is not required, however please refer to the Software Installation & Configuration Guide for Citect Anywhere Server and Secure Gateway.

Why Citect Anywhere?

Empower your operators in any location, at any time on any device with Citect Anywhere.

- Maximize your SCADA investment
- Reduce field service and maintenance costs
- Improve real-time decision making
- Boost efficiency and responsiveness
